

Download and Install Google Chrome

Download the Software

Firstly, you will need to download the software. You can use this [link Official Google Chrome download site](#).

The following window will appear.

Untick the checkbox here, there is no need to send this data - Help make Google Chrome better by automatically sending usage statistics and crash reports to

Then click on Download Chrome

A banner should appear near the bottom of the window. Click on Save. The Chrome install file will be saved in your downloads folder on the pc.

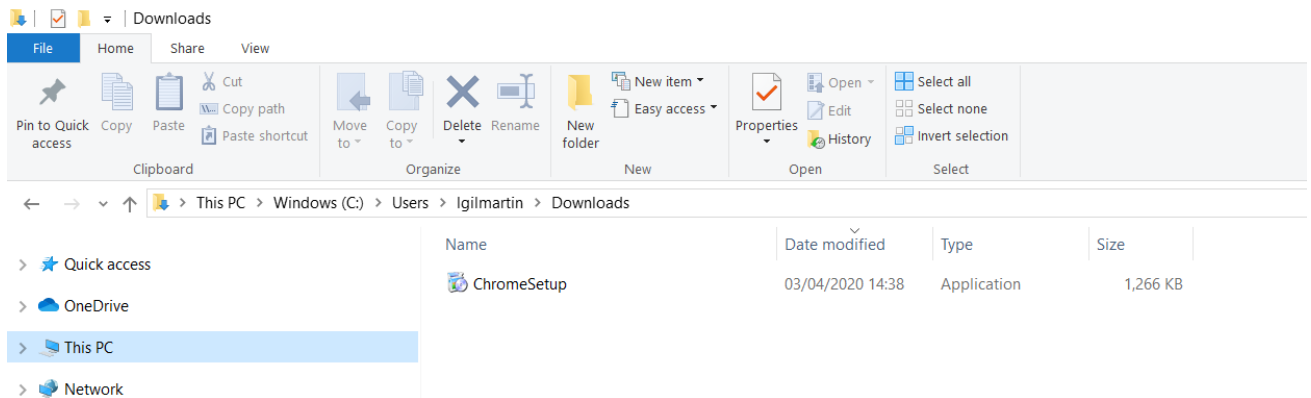

You must wait until the file has completely downloaded. A message should appear on your screen stating 'Thank you for Downloading Chrome!'

You can now close your browser.

Install the Software

Navigate to your Downloads folder to view the file. Path c:\Users\account name\downloads

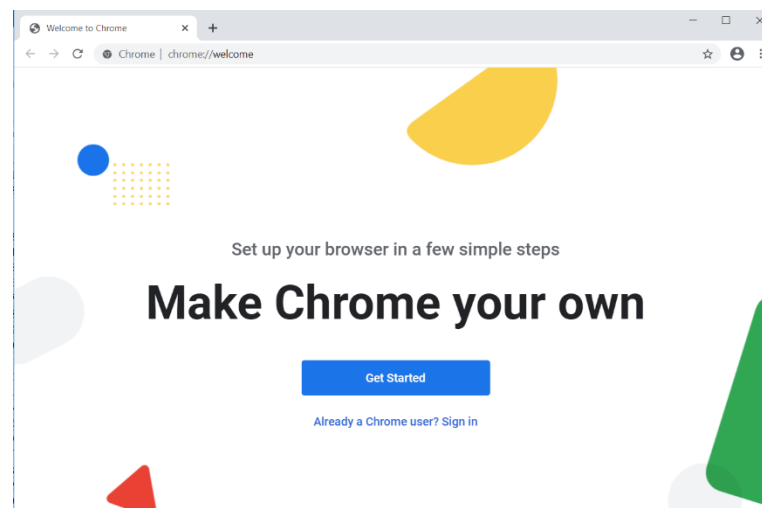

Double Click on ChromeSetup file.

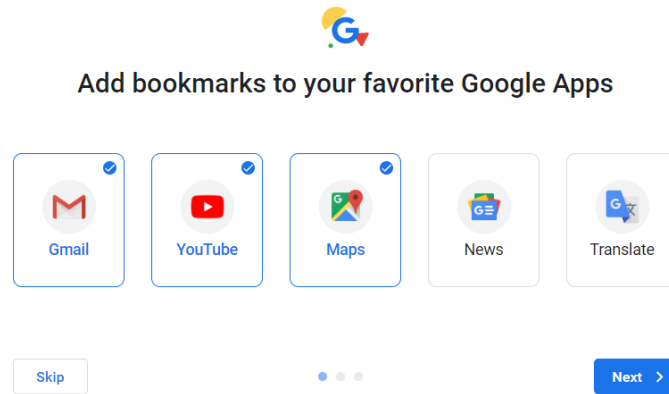

A window will appear that goes through the setup process. Depending on your network speed it will take a few minutes to download.

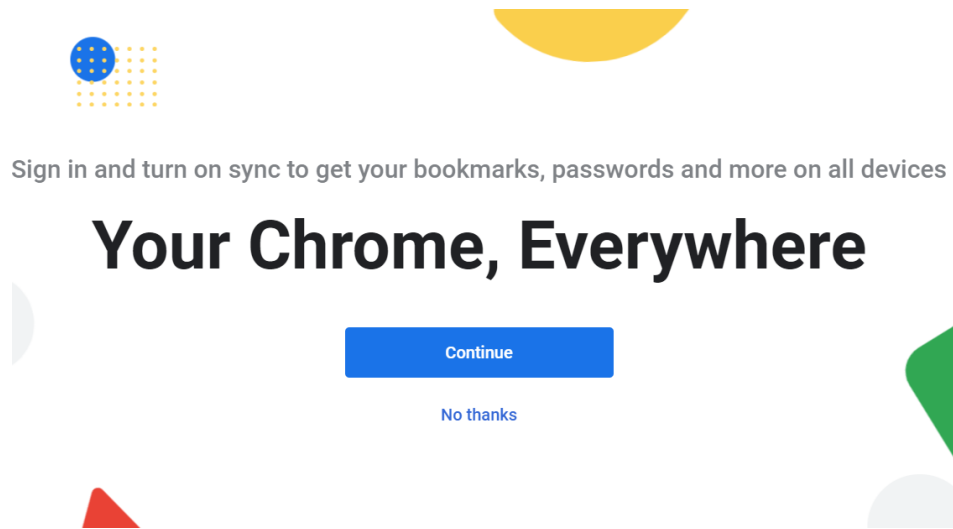

Once download completed the following window will appear.

Click on Get Started. The following screen will appear.

Click on 'Skip' on the next 3 screens to avoid personalisation.

Click on 'No Thanks'. You will be brought to the Google Home page.
