ECHAlliance Ecosystems: Goals / Objectives

The ecosystem goal is to **create 'permanent' mutually beneficial partnerships**, which **improves the delivery of health and social care**, at the same time as providing economic benefits.

An Ecosystem brings **together a community of multi-sector stakeholders**, interested in developing a joint health agenda, aiming to address and **find common solutions to challenges facing your region**.

The **main benefit of working together in an Ecosystem is the multiplier effect** and of collaborating in an International Network of Ecosystems.

Members of the International Network of Ecosystems

100+ quarterly gatherings per year

Existing Ecosystems

-  Belgium – Brussels
-  Belgium - Flanders
-  Canada – Ontario
-  Czech Republic
-  Denmark – South
-  England – Manchester
-  England - North West Coast
-  England – London
-  England - Yorkshire & Humber
-  Estonia
-  Finland – Oulu
-  France – Nice PACA
-  Germany - Rheinland

-  Greece - Athens
-  Netherlands - Friesland
-  Northern Ireland
-  Portugal
-  Republic of Ireland
-  Serbia
-  Scotland
-  Slovenia
-  Spain – Valencia
-  Spain - Galicia
-  Spain – Catalonia
-  USA - New York
-  Wales

Launching soon

- Bretagne - France 
- Lithuania 
- Highlands & Islands (Scotland) 
- Malta 

Exploring Prospects

- Uganda - Africa
- Austria
- Melbourne - Australia
- Canada
- Finland
- Germany
- USA
- Netherlands
- Romania
- UK

A multi-stakeholders initiative
launched in July 2017, under the Estonian EU Presidency

The DHS Task Forces

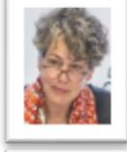

Convergence roadmap on interoperability standards and Digital Telehealthcare

protocol

Led by Erik GERRITSEN, Secretary General of the Ministry of Health of Netherlands

Citizen-controlled data governance & Data Donors

Led by Angela BRAND, Professor at Maastricht University

Legal framework facilitating the free flow and the 2nd use of health data

Led by Bleddyn REES, Digital health expert and lawyer at Osborne Clarke

Digital transformation & change management in Health & Social Care organisations

Led by Richard CORBRIDGE, Chief Digital & Information Officer, Leeds Teaching Hospitals NHS Trust

Get involved (DHS is open to all & no fees): [Digital Health Society Update](#)

100 million Digitally Connected Healthy EU citizens By 2027

All data for
All Conditions

Personalised
+ Population
Health

The DHS movement has designed an **ambitious research and innovation programme for health and wellbeing in Europe, enabled by key support activities and involving the EU citizens and the whole society**. Its purpose is not to define each project or initiative but to define a moonshot target and to describe the components of the programme to reach this goal.

The moonshot aims to develop a series of support activities and research & innovation projects, driving to **collect the data** (relevant for health purpose) **of 100 million European citizens, by 2027, and make them available** (under conditions) – [read the full description of the moonshot](#).
