

**Patient Flow Dataset Ireland**

| Term  | Preferred Term   | Concept ID   |
|---|--|--------------|
| Referral to community-based occupational therapist (procedure)      | Referral to community-based occupational therapist           | 306355004    |
| Hodgkin's disease (disorder)  | Hodgkin's lymphoma   | 118599009    |
| Sepsis (disorder)   | Systemic infection   | 91302008     |
| Carcinoma of prostate (disorder)                                    | CA - Carcinoma of prostate                                   | 254900004    |
| Air-filled bed mattress overlay (physical object)                   | Air mattress   | 468747008    |
| Hydronephrosis (disorder)   | Hydronephrosis   | 43064006     |
| Chronic primary headache (disorder)                                 | Chronic primary headache                                     | 762592003    |
| Colitis (disorder)  | Colitis  | 64226004     |
| Referral to hospital-based occupational therapy service (procedure) | Referral to hospital-based occupational therapy service      | 306168003    |
| Walking aid use (observable entity)                                 | Walking aid use  | 165251008    |
| Acute tubular necrosis (disorder)                                   | Acute tubular necrosis                                       | 35455006     |
| Methicillin resistant Staphylococcus aureus infection (disorder)    | MRSA (Methicillin resistant Staphylococcus aureus) infection | 266096002    |
| Appendicitis (disorder)   | Appendicitis   | 74400008     |
| Carbapenem resistant Enterobacteriaceae (organism)                  | Carbapenem resistant Enterobacteriaceae                      | 712662001    |
| Ulcer of lower extremity (disorder)                                 | Leg ulcer  | 95344007     |
| Ménière's disease (disorder)  | Ménière's disease  | 13445001     |
| Care of patient's personal effects (procedure)                      | Patient property   | 24218006     |
| Thrombosis (disorder)   | Thrombosis   | 439127006    |
| Cholangitis (disorder)  | Cholangitis  | 82403002     |
| Acetaminophen overdose (disorder)                                   | Paracetamol overdose   | 295124009    |
| Tachycardia (finding)   | Tachycardia  | 3424008      |
| Malignant lymphoma (disorder)                                       | Lymphoma   | 118600007    |
| Venous ulcer of lower leg (disorder)                                | Venous ulcer of lower leg                                    | 1237117000   |
| Myasthenia gravis (disorder)  | Myasthenia gravis  | 91637004     |
| Sarcoidosis (disorder)  | Sarcoidosis  | 31541009     |
| Encephalitis (disorder)   | Encephalitis   | 45170000     |
| Ketoacidosis due to diabetes mellitus (disorder)                    | DKA - diabetic ketoacidosis                                  | 420422005    |
| Irish National Early Warning System Score (assessment scale)        | Irish National Early Warning System Score                    | 741000220101 |
| Vomiting (disorder)   | Vomiting   | 422400008    |
| Bacterial arthritis (disorder)                                      | Septic arthritis   | 48245008     |
| Hand foot and mouth disease (disorder)                              | Hand foot and mouth disease                                  | 266108008    |
| Vascular dementia (disorder)  | Vascular dementia  | 429998004    |
| Monkeypox (disorder)  | Mpox   | 359814004    |
| Hyponatremia (disorder)   | Hyponatraemia  | 89627008     |

|  |  |                  |
|--|--|------------------|
| Ulcerative colitis (disorder)                                      | Ulcerative colitis                         | 64766004         |
| Meningococcal infectious disease (disorder)                        | Meningococcal infectious disease           | 23511006         |
| Inflammatory disease of liver (disorder)                           | Hepatitis                                  | 128241005        |
| Severe acute respiratory syndrome coronavirus 2 detected (finding) | COVID-19 detected                          | 1240581000000104 |
| Mass of adrenal gland (finding)                                    | Adrenal mass                               | 237783006        |
| Cauda equina syndrome (disorder)                                   | Cauda equina syndrome                      | 192970008        |
| Transfers using hoist (finding)                                    | Transfers using hoist                      | 431188001        |
| Gastroesophageal reflux disease (disorder)                         | GORD - Gastro-oesophageal reflux disease   | 235595009        |
| Pleural effusion (disorder)  | Pleural effusion                           | 60046008         |
| Hypothyroidism (disorder)  | Hypothyroidism                             | 40930008         |
| Psychotic disorder (disorder)                                      | Psychosis                                  | 69322001         |
| Autistic disorder (disorder)                                       | Autism                                     | 408856003        |
| Osteoporosis (disorder)  | Osteoporosis                               | 64859006         |
| Traumatic brain injury (disorder)                                  | Traumatic brain injury                     | 127295002        |
| Colles' fracture (disorder)  | Colles' fracture                           | 123971006        |
| Cystic fibrosis (disorder)   | CF - Cystic fibrosis                       | 190905008        |
| Inguinal hernia (disorder)   | Inguinal hernia                            | 396232000        |
| Hypoxia (disorder)   | Hypoxia                                    | 389086002        |
| Dyspnea (finding)  | SOB - Shortness of breath                  | 267036007        |
| Pericardial effusion (disorder)                                    | Pericardial effusion                       | 373945007        |
| Hematoma (disorder)  | Haematoma                                  | 385494008        |
| Osteomyelitis (disorder)   | Osteomyelitis                              | 60168000         |
| Senile dementia of the Lewy body type (disorder)                   | Senile Lewy body dementia                  | 312991009        |
| Viral hepatitis type B (disorder)                                  | Hepatitis B                                | 66071002         |
| Bleeding from nose (finding)                                       | Epistaxis                                  | 249366005        |
| Concussion injury of cerebrum (disorder)                           | Cerebral concussion                        | 447396006        |
| Meningitis (disorder)  | Meningitis                                 | 7180009          |
| Referral to hospital-based physiotherapist (procedure)             | Referral to hospital-based physiotherapist | 306359005        |
| Necrotizing fasciitis (disorder)                                   | Necrotising fasciitis                      | 52486002         |
| Provision of pressure relieving mattress (procedure)               | Provision of pressure relieving mattress   | 733920005        |
| Diabetes mellitus type 2 (disorder)                                | Type 2 diabetes mellitus                   | 44054006         |
| Syphilis (disorder)  | Syphilis                                   | 76272004         |
| Lyme disease (disorder)  | Lyme disease                               | 23502006         |
| Adhesion (morphologic abnormality)                                 | Adhesion                                   | 42685002         |
| Horner's syndrome pupil (disorder)                                 | Horner's syndrome pupil                    | 271730003        |
| Bradycardia (finding)  | Bradycardia                                | 48867003         |
| Cirrhosis of liver (disorder)                                      | Cirrhosis of liver                         | 19943007         |

|  |  |                    |
|--|--|--------------------|
| Requires continuous home oxygen supply (finding)   | Requires continuous home oxygen supply           | 716366009          |
| Vertigo (finding)  | Vertigo  | 399153001          |
| High dependency unit (environment)   | HDU - High dependency unit                       | 397771005          |
| Patient name (observable entity)   | Patient name                                     | 371484003          |
| Abscess of skin and/or subcutaneous tissue caused by ingrown hair (disorder)             | Pilonidal abscess                                | 866000008          |
| Infection of skin (disorder)   | Infection of skin                                | 108365000          |
| Infectious disease (disorder)  | Infection  | 40733004           |
| Refer to hospital outpatient department (procedure)                                      | Refer to hospital outpatient department          | 183664005          |
| Extended-spectrum beta lactamase (substance)   | Extended-spectrum beta lactamase                 | 102769001          |
| Empyema (disorder)   | Empyema  | 312682007          |
| Tachypnea (finding)  | Tachypnoea                                       | 271823003          |
| Cerebrovascular accident (disorder)  | Stroke   | 230690007          |
| Ability to mobilize (observable entity)  | Ability to mobilise                              | 301438001          |
| Goiter (disorder)  | Thyromegaly                                      | 3716002            |
| Splenomegaly (disorder)  | Splenomegaly                                     | 16294009           |
| Subarachnoid intracranial hemorrhage (disorder)  | Subarachnoid haemorrhage                         | 21454007           |
| Paralysis (finding)  | Paralysis  | 44695005           |
| Hospital consultant (occupation)   | Hospital consultant                              | 309390008          |
| Conjunctivitis (disorder)  | Conjunctivitis                                   | 9826008            |
| Suspected malignancy (situation)   | Suspected cancer                                 | 162572001          |
| Dysphasia (finding)  | Dysphasia  | 20301004           |
| Multiple drug-resistant Klebsiella pneumoniae (organism)                                 | Multiple drug-resistant Klebsiella pneumoniae    | 714315002          |
| Carbapenemase-producing Enterobacteriaceae (organism)                                    | CPE - Carbapenemase-producing Enterobacteriaceae | 734351004          |
| Cardiac arrhythmia (disorder)  | Cardiac arrhythmia                               | 698247007          |
| Gallbladder calculus (disorder)  | Gallstone  | 235919008          |
| Asthma (disorder)  | Asthma   | 195967001          |
| Fasciitis (disorder)   | Fasciitis  | 36948007           |
| Edema (finding)  | Oedema   | 267038008          |
| Small bowel obstruction (disorder)   | SBO - Small bowel obstruction                    | 281255004          |
| Intestinal obstruction (disorder)  | Bowel obstruction                                | 81060008           |
| Herpes zoster (disorder)   | Shingles   | 4740000            |
| Individual health identifier (observable entity)   | IHI  | 861000220106       |
| Genus Norovirus (organism)   | Norovirus  | 407359000          |
| History of disease caused by severe acute respiratory syndrome coronavirus 2 (situation) | History of COVID-19                              | 292508471000119105 |
| Peptic ulcer (disorder)  | Peptic ulcer                                     | 13200003           |

|  |  |                 |
|--|--|-----------------|
| Provision of ambulance with stretcher facility (procedure) | Provision of ambulance with stretcher facility | 716733008       |
| Fracture, comminuted (morphologic abnormality)             | Fracture, comminuted                           | 13321001        |
| Neuropathy (disorder)                                      | Neuropathy                                     | 386033004       |
| Bell's palsy (disorder)                                    | Bell's palsy                                   | 193093009       |
| Zika virus (organism)                                      | Zika virus                                     | 50471002        |
| Deep venous thrombosis (disorder)                          | Deep venous thrombosis                         | 128053003       |
| Intensive care unit (environment)                          | Intensive care unit                            | 309904001       |
| Endocarditis (disorder)                                    | Endocarditis                                   | 56819008        |
| Sclerosis (morphologic abnormality)                        | Sclerosis                                      | 43846000        |
| Hydrocephalus (disorder)                                   | Hydrocephalus                                  | 230745008       |
| Referral to community-based physiotherapist (procedure)    | Referral to community-based physiotherapist    | 306358002       |
| Neutropenia (finding)                                      | Neutropenia                                    | 165517008       |
| Total parenteral nutrition agent (substance)               | TPN - total parenteral nutrition               | 789708003       |
| Medical record number (observable entity)                  | MRN- Medical Record Number                     | 398225001       |
